

NTG East AB and our environmental policy

Leading companies, large and small, are searching for ways to go green and must work together to reduce emissions.

We all want our planet to remain for coming generations. Sustainability is the key element to preserve ecology of the world, and we work hard to make our business as sustainable, as we possibly can. This takes not only devoted work from our employees, but also following actions:

- ✓ We pay environmental taxes in some of the countries, that we operate in
- ✓ We are providing a still growing numbers of environmental reports
- ✓ We are maintaining and developing our ISO14001
- ✓ Environmental fees for driving through various cities in Europe
- ✓ Marpol fee from the ferry companies
- ✓ Claims from authorities in regards of work station equipment for the employees
- ✓ Investment in digitalized IT that secures the best dispo of the trucks which means less empty km and less CO2 emissions
- ✓ Investment in energy efficient light in warehouses and offices
- ✓ Environmental management system certification and maintenance of the same

Therefore we, from 1st of May 2021, will add an environmental fee of 7,5 EUR/55 DKK/75 SEK/75 NOK. We do hope and believe that all above mentioned actions will make a difference.
